Innovative Building
Material Manufacturing
Company of the Year 2023
Presented By
Africa Housing Awards

PRECISION. INNOVATION. EXCELLENCE.

For over 30 years, West African Ceramic Limited has been at the forefront of quality and innovation in building material manufacturing, setting the benchmark for excellence in Nigeria and beyond. As Nigeria's first indigenous tile manufacturing company, we pioneered the industry by fusing local ingenuity with global technology.

- ◆ **World-Class Manufacturing** – Our state-of-the-art facility is powered by cutting-edge Italian machinery and a highly skilled production team, dedicated to achieving unmatched precision and perfection.
- ◆ **Sustainable & Efficient Practices** – We utilize eco-friendly production processes that minimize waste and maximize efficiency, ensuring responsible manufacturing practices.
- ◆ **Unmatched Quality** – We produce premium, durable tiles that not only meet but exceed global industry standards, delivering excellence in every piece.
- ◆ **A True Import Substitute** – Offering European-style elegance, our locally manufactured products provide superior quality at competitive prices, redefining the building materials market.
- ◆ **Innovation at Its Core** – Our advanced manufacturing techniques ensure top-tier finishes, exceptional strength, and a wide array of aesthetic choices tailored to modern demands.

Now Available

BENEFITS OF USING OUR HIGH THICKNESS TILES

Durability and Strength:

High Resistance to heavy loads, making them suitable for warehouses, factories and garages, withstanding high-impact forces reducing the risk of breakages.

Wear and Abrasion Resistance:

Suitable for high Traffic areas with continuous movement of forklifts, people and mini vehicles, the surface will withstand and remain for long years with minimal wear.

Chemical and Stain Resistance:

Resistant to oils, acids and chemicals commonly found in industrial environments which comes with properties like easy to clean and maintain without deterioration.

Thermal and Fire Resistance:

Can withstand extreme temperatures without cracking as the manufacturing process is done at very high temperatures than the regular Vitrified Tiles.

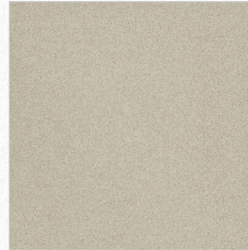

Anti-Slip and Safety Features:

Textured Surfaces improve grip, reducing the risk of slip and fall, the tiles further are in compliance with safety industry standards.

Low Maintenance and Cost-Effective:

Requires minimal upkeep, reducing the long term maintenance cost. It is a better option over epoxy flooring which is higher in cost and needs frequent maintenance.

BENEFITS OF STONE-LOOK TILES: DIGITAL & RUSTIC SERIES

Natural Aesthetic

Our stone collections are manufactured with advanced technology for high-definition, realistic stone patterns. It replicates the elegance of natural stone without the high cost.

Durability and Strength

Unlike natural stone, these tiles resist scratches, stains, and wear, making them ideal for high-traffic areas in both residential and commercial spaces.

Water and Stain Resistance

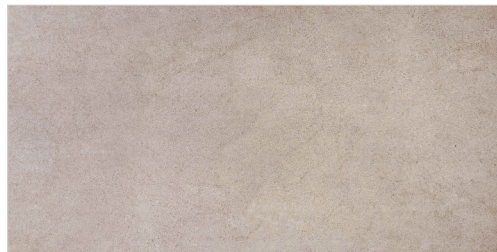

With low water absorption, these tiles are perfect for wet areas such as bathrooms, kitchens, and outdoor spaces. Unlike natural stone, they remain resistant to moisture damage.

Low Maintenance

Cleaning is effortless, requiring only mild detergent and water, with no need for special treatments. Their non-porous surface prevents mold, mildew, and dust accumulation, ensuring a hygienic environment.

BENEFITS OF STONE-LOOK TILES: DIGITAL & RUSTIC SERIES

Cost-Effective Alternative

These tiles deliver the luxurious look of stone at a fraction of the cost, reducing both material and installation expenses while maintaining a high-end aesthetic.

Versatile Applications

Suitable for floors, walls, and outdoor applications, these tiles complement a wide range of interior styles, including modern, rustic, industrial, and classic designs.

Eco-Friendly Choice

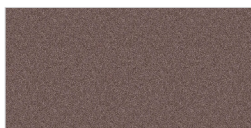

Manufactured using sustainable practices, these tiles reduce the need for quarrying natural stone. Some options even incorporate recycled materials, making them an environmentally responsible choice.

30X60CM STONE-LOOK TILES: A PERFECT BLEND OF STYLE AND FUNCTIONALITY

The 30x60cm stone-look tiles from ROYAL are designed to bring the timeless elegance of natural stone to modern spaces. With their versatile size and realistic textures, these tiles offer a refined aesthetic suitable for both residential and commercial applications.

Ideal Size for Modern Designs

The 30x60cm format provides a balanced, contemporary look, making it perfect for walls and floors. Its rectangular shape enhances spatial perception, adding a sense of depth and openness to any space.

Enhanced Surface Textures

These tiles feature highly detailed stone-like textures that replicate natural surfaces with precision, bringing depth and sophistication to interiors.

Versatile Design Applications

Suitable for both indoor and outdoor settings, these tiles work seamlessly in bathrooms, kitchens, facades, and commercial spaces. Their neutral tones complement a variety of design styles, from contemporary to industrial.

Seamless Coordination with Other Tile Sizes

The 30x60cm format pairs well with other tile dimensions, allowing for creative layouts and unique pattern combinations. This makes it a flexible choice for architects and interior designers looking to create custom visual effects.

Practical and Functional

Beyond aesthetics, these tiles offer practical benefits such as resistance to moisture and stains, making them an excellent choice for high-traffic areas. Their non-porous nature ensures a clean and hygienic environment with minimal effort.
